

PRASHANTH NEMADI

Software Engineer | React, Next.js, Node.js, Python

+91-8147070249 | Bengaluru, Karnataka | prashanthnemadi@gmail.com | LinkedIn: [linkedin.com/in/prashanth-nemadi](https://www.linkedin.com/in/prashanth-nemadi)

Portfolio: prashanthnemadi18.github.io/portfolio | GitHub: <https://github.com/prashanthnemadi18>

PROFESSIONAL SUMMARY

Software Engineer (B.E. CSE, 2026) with hands-on experience designing and shipping end-to-end web applications using React, Next.js, and Tailwind CSS on the frontend, and Python (Flask, FastAPI) with MySQL and MongoDB on the backend. Skilled in RESTful API design, JWT-based authentication, role-based access control, and integrating third-party AI APIs (Google Gemini) into production systems. Experienced across the full development lifecycle — from database schema and API design to responsive UI with a working foundation in CI/CD pipelines, Git-based workflows, and writing clean, maintainable code.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript

Frontend: React.js, Next.js 15, HTML5, CSS3, Tailwind CSS, Framer Motion

Backend: Node.js, Flask, FastAPI, REST API Development, JWT Authentication

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Vercel, Jupyter Notebook

PROJECTS

Smart Hire ATS (Application tracking system)

- Built a dual-dashboard Applicant Tracking System for HR and candidates using React, React Router, Tailwind CSS, with a Python FastAPI backend and MongoDB for async data operations.
- Implemented an NLP-based resume ranking algorithm using TF-IDF vectorization and Cosine Similarity — scoring candidates out of 100 with a 70% semantic match + 30% skill match weighted formula.
- Secured all API routes with JWT and bcrypt authentication, and implemented role-based access control with separate protected dashboards for HR and Candidate user roles.

AI Quiz Platform

- Architected and delivered a full-stack, scalable AI quiz application supporting camera capture, file upload, PDF export, and OAuth authentication (Google & GitHub), deployed to Vercel with CI/CD auto-deploy pipeline.
- Integrated Google Gemini AI to auto-generate MCQ, True/False, and fill-in-the-blank questions for any subject and difficulty level, eliminating manual question creation.
- Designed a mobile-responsive UI with Tailwind CSS and Framer Motion, and built an analytics dashboard to track quiz history, scores, and performance trends over time.

Food Saver AI - Agriculture & Sustainability Platform

- Built RESTful API backend using FastAPI with 10+ endpoints for authentication, CRUD operations, and real-time analytics with CORS middleware and error handling.
- Trained custom ML models using Scikit-learn Random Forest achieving 90%+ accuracy for food expiry prediction by analyzing storage conditions and categories.
- Developed scalable backend with modular ML pipeline using PyTorch and TensorFlow implementing model serialization with joblib for production deployment.

INTERNSHIP EXPERIENCE

AI & ML Intern — SphereneX (Nexspyder Technologies Pvt Ltd)

Jan 2026 – Apr 2026

- Gained hands-on experience in React.js fundamentals and Firebase integration, building real-time database connections and authentication flows during the internship.
- Developed and deployed the Smart Hire ATS project, implementing NLP-based resume ranking algorithms using TF-IDF and Cosine Similarity with a FastAPI backend and MongoDB.
- Learned and applied AI/ML concepts including core algorithms, YOLO object detection module, and AI pipeline development understanding how AI models are built, trained, and integrated into real-world applications.

EDUCATION

B.E. in Computer Science — Bahubali College of Engineering

Aug 2022 – May 2026

CGPA: 8.1 | Shravanabelagola, Karnataka

Pre-University (Science) — Sangameshwar Composite PU College

May 2020 – Jul 2022

Percentage: 65.6% | Aminagad, Karnataka

PUBLICATION & ACHIEVEMENTS

- Published research paper: "AI-Generated Online Examination" in IJIRT (Vol 12, Issue 8, Jan 2026), covering AI-based automation of exam generation and evaluation.
- Secured 1st Place in Mathematics Day Quiz Competition at college level.
- Led a team of 4 as Team Lead in multiple college-level Hackathons, coordinating project delivery end-to-end.
